

I currently live in Sun Valley, but I came from Denver where K-Love is played 24/7. The community benefits from the K-Love programming by providing an alternative to the typical stations. It is a contemporary Christian station that many people tune into for encouraging and uplifting messages of hope.

If K-Love were replaced by LPFM, it would continue to drive me, personally, further away from the radio. As it is I would only listen to K-Love anyway.

This is an alternative radio station that can give a balance to what is provided on other stations.

Please reconsider displacing K-Love and the others with LPFM.

Thank you for your consideration!
